

GARY SEES RECORD YEAR FOR STEEL

Indications Are Manufacturers Will Exceed All Outputs, He Tells Institute.

PUBLIC'S NEEDS PILE UP

Country Has More Room for Optimist, but Little Place for Pessimist.

That there is a large and profitable business ahead for the iron and steel industry is the opinion expressed by Judge E. H. Gary, president of the American Iron and Steel Institute, in his opening address yesterday morning before the fifteenth general meeting of the institute. He declared that the needs of the purchasing public are piling up, and he believes from present indications that production of iron and steel manufacturing this year will exceed all previous records.

Judge Gary reviewed the efforts of the steel manufacturers during the war and the present situation of the industry.

He said that the industry is in a position to meet the needs of the country and that the steel industry of France would never work any more for war products.

War of Steel.

Joseph G. Butler, Jr., of Youngstown, Ohio, "Uncle Joe," the steel man, said that the steel industry had been a war of steel.

Men and money, he said, were the determining elements of military power, and the steel industry was the backbone of the nation.

Butler pointed out, advanced wages to a total of considerably more than 100 per cent, thus enabling employees to share in the prosperity of the industry.

He said that the steel industry was in a position to meet the needs of the country and that the steel industry of France would never work any more for war products.

Prices Are Improving.

Since the armistice was signed the steel industry has made substantial gains in selling price and volume.

At present there is a perceptible and gradual improvement. It seems probable that this will continue and increase.

EUROPE MUST FIX HER CREDIT NEEDS

Henry P. Davison Describes Job of Foreign Governments After Signing Treaty.

CAN DEPEND ON AMERICA

Lowers Estimate of European Requirements—Can Only Prepare Now.

Henry P. Davison, who was at the office of J. P. Morgan & Co. yesterday for the first time in many months, declared that the first task of European Governments, following the conclusion of the armistice, will be the formulation of credit needs, but America will be unable to extend any aid until the European budget has been completed.

Mr. Davison said that several weeks ago he had thought it advisable to make a definite financial plan based on Europe's credit needs.

He said that the steel industry was in a position to meet the needs of the country and that the steel industry of France would never work any more for war products.
